

Interface for EZ-CAP

Provider and administrative dashboards are now easily available to EZ-CAP users, thanks to a partnership between MZI HealthCare and Unlimited Innovations, developer of the CERECONS software for healthcare organizations.

CERECONS is a member of the EZ-PARTNER Affiliate program, which provides an authorized Application Program Interface (API) between CERECONS and EZ-CAP. This allows a bi-directional flow of information into and out of the EZ-CAP program.

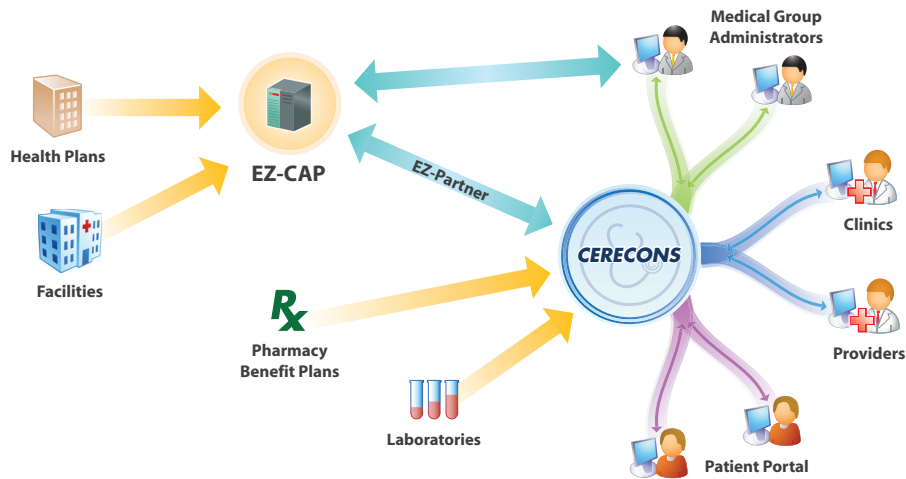

“EZ-CAP users can add major new features, such as a Patient Portal, and be assured of a supported interface.”

— **Philip Paul, CEO, Unlimited Innovations**
Developer of CERECONS

CERECONS has incorporated this API into its integration engine to provide EZ-CAP clients with the full range of CERECONS functionality, resulting in an optimized end-to-end healthcare management system.

CERECONS has been providing solutions to Managed Care Organizations and IPAs for many years. Among the CERECONS product capabilities now available through an authorized interface to EZ-CAP users are:

- Provider Dashboard
- Administrative Dashboard
- Patient Portal
- Referrals & Authorizations Management
- Clinical Facesheet
- Comprehensive status information
- Claims Management
- Clinical Informatics and Reporting
- Inpatient Management

EZ-CAP users can access information from clinics, providers, lab, patients, administrators and other front-facing groups through the interface to CERECONS.

About CERECONS

CERECONS provides healthcare organizations with rapid, affordable means to manage a wide range of clinical and operational data, and also provide patients with access to their healthcare information. As a web-based Software as a Service (SaaS) offering, CERECONS can be quickly installed and consistently maintained with minimal impact on internal information technology resources. Modules include authorization management, clinical reporting, claims administration and inpatient activities, as well as Electronic Health Record (EHR). Health plans, medical groups, hospital administrators, physicians and patients benefit from simplified healthcare transaction processing and coordination. CERECONS is the healthcare division of Unlimited Innovations, Inc.
