

MCA Integration with CERECONS Available Now

Provider and administrative dashboards are now easily available to users of GEHC's Managed Care Application (MCA), thanks to a partnership between GE and Unlimited Innovations, developer of the CERECONS software for healthcare organizations.

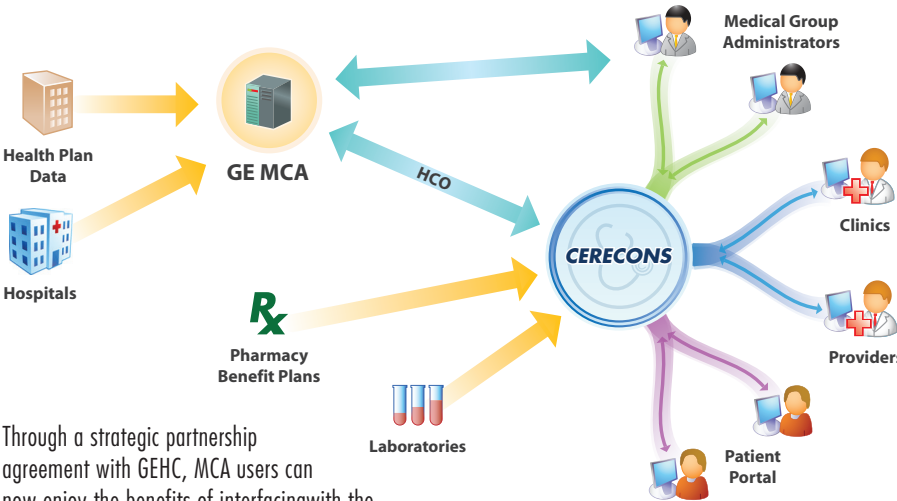

MCA has developed a sophisticated Application Program Interface (API) that allows other software to "talk" to MCA, providing a bi-directional flow of information into and out of the MCA program. CERECONS has incorporated this API to their integration engine to provide MCA clients with the full range of CERECON functionality, resulting in an optimized end-to-end healthcare management system.

"MCA users will benefit from the Provider and Administrative portals now available to them through the interface to CERECONS."

Stephanie Kovalick,
Director of GE Healthcare
Integrated IT Solutions

CERECONS has been providing solutions to Managed Care Organizations and IPAs for many years. Among the CERECONS product capabilities now available to MCA users are:

- Provider Dashboard
- Administrative Dashboard
- Patient Portal
- Referrals & Authorizations Management
- Clinical Facesheet
- Comprehensive status information
- Claims Management
- Clinical Informatics & Reporting
- Inpatient Management

Through a strategic partnership agreement with GEHC, MCA users can now enjoy the benefits of interfacing with the CERECONS portal with their embedded HCO integration.

About CERECONS

CERECONS provides healthcare organizations with rapid, affordable means to manage a wide range of clinical and operational data, and also provide patients with access to their healthcare information. As a web-based Software as a Service (SaaS) offering, CERECONS can be quickly installed and consistently maintained with minimal impact on internal information technology resources. Modules include authorization management, clinical reporting, claims administration and inpatient activities, as well as Electronic Health Record (EHR). Health plans, medical groups, hospital administrators, physicians and patients benefit from simplified healthcare transaction processing and coordination. CERECONS is the healthcare division of Unlimited Innovations, Inc.
